

Junior Research Group "Learning from Alzheimer's Disease" (Dr. Lara Keuck)

Workshop

ORAL HISTORY IN THE HISTORY OF BIOMEDICAL RESEARCH

Since the mid-20th century, the method of Oral History has been used in history of science. What is the role of interviews in our history writing today? We want to discuss in a workshop with Dr. Jenny Bangham (University of Cambridge, UK) this question on the basis of ongoing research projects on the history of late twentieth century biomedical research.

Friedrichstraße 191-193, R 5061, 14-17h

We will be glad to receive your registration at seraphina.rekowski@hu-berlin.de!
